Each troop can plan for the following from their country:

You can even add your own touch such as having your girls dress in that countries attire. Keep in mind when planning your things for your country, each troop visiting your country might only have 6-8 minutes. Once we get an estimate on the number of troops attending, we can give you a more accurate time frame. The adults will be running the countries table and all the girls will rotate through all the countries.
