Hello all, here (**BELOW**) is info about a scout night at **Walking with Dinosaurs in August**. As there is a \$10 fee per order I can put any orders through the community account **to save troops this fee**. Anyone can order tickets at this discount rate. **Please note there is a \$.50 charge/patch so be sure to include that in any order**. The minimum number of tickets needed to get the group rate is 10. The 10 they refer to in the info when they say "scouts of 10 or more" is not an age requirement. This is a special rate for scouts but there is no pre or post show special for scouts at this show and **as I said patches must be ordered separately**. Please have any orders at our **May 20th SU meeting**. **Checks should be made out to GSWPA**. Thanks - Rebecca

Hi Rebecca.

I just wanted to make sure that this was open as a family event (as was the cirucs) and not just scouts.

Thanks.
Rhonda

Hi Rhonda, yes, I believe it is like the circus in that **anyone can buy tickets at this discount rate**. Just **make sure to add \$.50 to any tickets for scouts so you get a patch**. Thanks - Rebecca

For 200 million years the Dinosaurs ruled the earth..... In 2007 they returned to tour the arenas of the world in an extraordinary theatrical production.....And in 2014 they conquer North America again!

WALKING WITH DINOSAURS: THE ARENA SPECTACULAR

Scout Night: Friday, August 1 - 7:00PM

Dinosaurs once again roam the earth when the spectacular production, WALKING WITH DINOSAURS: THE ARENA SPECTACULAR, based on the award-winning BBC Television Series, returns to North America this summer. The show that critics have called 'awesome', 'spectacular' and 'breathtaking' will stop in Pittsburgh.

Ten species are represented from the entire 200 million year reign of the dinosaurs. The show includes the Tyrannosaurus Rex, the terror of the ancient terrain, as well as the Plateosaurus and Liliiensternus from the Triassic period, the Stegosaurus and Allosaurus from the Jurassic period and Torosaurus and Utahraptor from the awesome Cretaceous period. The largest of them, the Brachiosaurus is 36 feet tall, and 56 feet from nose to tail!

Scouts of 10 or More SAVE!
